The Company

- ▶ IMPALA PHONES PVT. LTD. is a company formed in the year 1983.
- ▶ We are a 36 year old telecom Manufacturing company situated in Mumbai

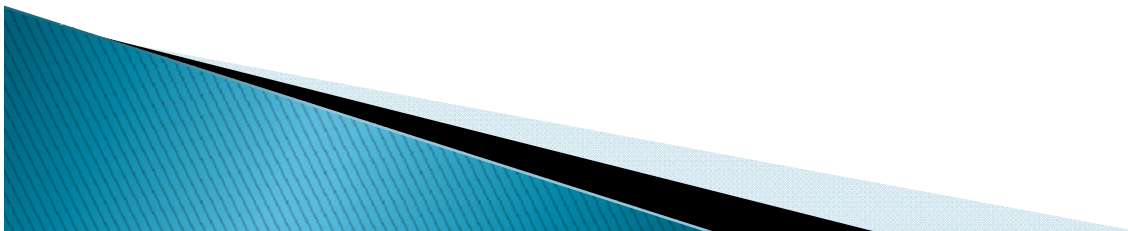

The Product

Impala Tele-Security Intercom is a High Speed Microcontroller Based EPAX (Electronic Private Branch Telephone Exchange).

The Product

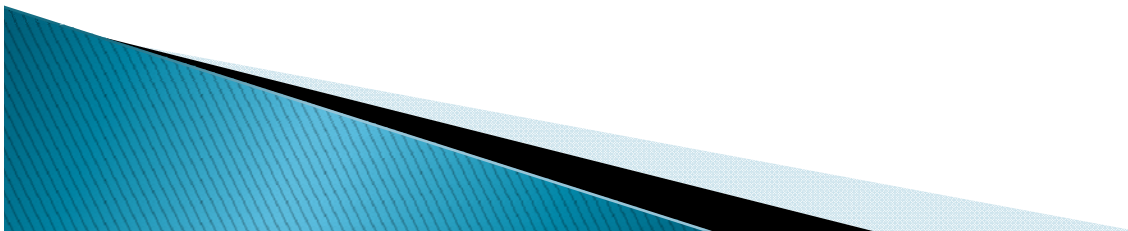

- The system is:
 - ▶ Designed
 - ▶ Developed & Manufacture
By Impala In Bhandup
Mumbai

What is the life of the system ?

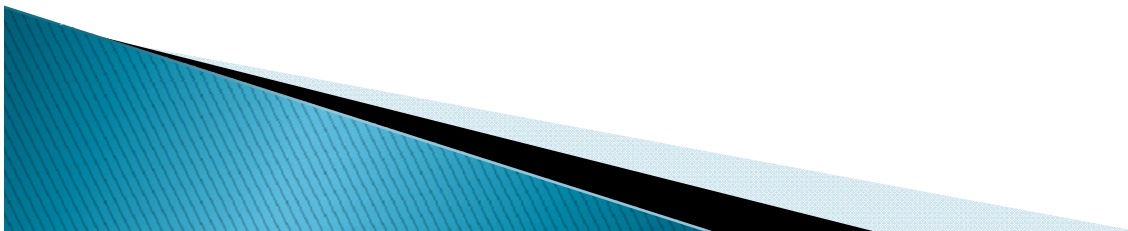

The entire installation is formed in three parts.

- ▶ The Main Intercom System (EPAX)
- ▶ Telephone Instrument
- ▶ Cable

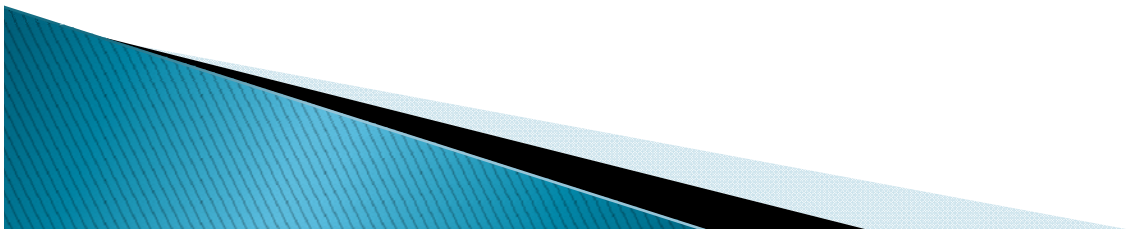

What is the life of the system ?

- ▶ Impala Tele-Security System is Designed to withstand Mumbai and its climatically condition, the system is designed in such a manner, that normal life will be at least 15 years.

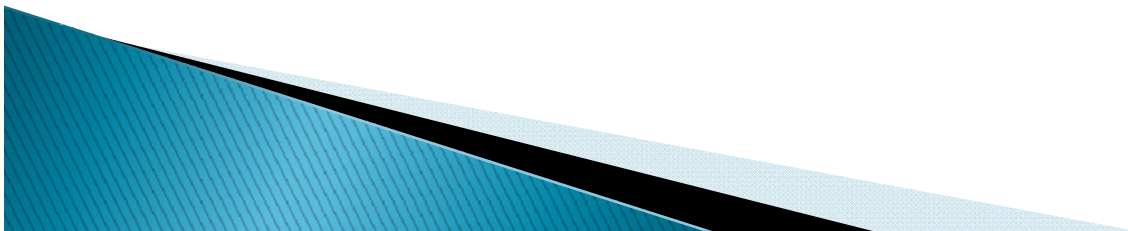

What is the life of the system ?

- ▶ Telephone instruments undergo wear-n-tare, hence the normal life of telephone instruments are approximately 7 years.
- ▶ Cable being copper and prone to oxidation, normally will withstand a 15 year life, however, during the course of this 15 years in case cable is damaged due to external force like major repair of building etc. the life of cable reduces drastically due to forced oxidation from the damaged area of the cable.

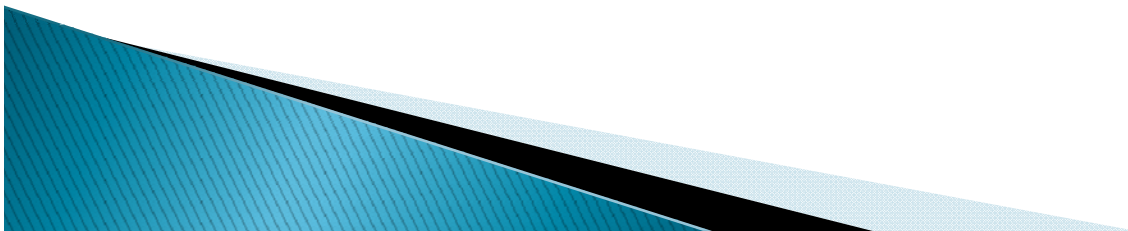

Given the above, the same will hold true only if !

- ▶ The organisation you are going to deal with will continue to exist

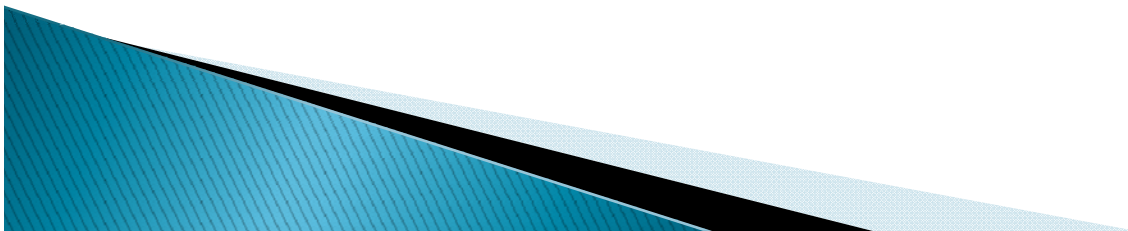

Given the above, the same will hold true only if !

- ▶ The organisation you are dealing with will continue with the same product line

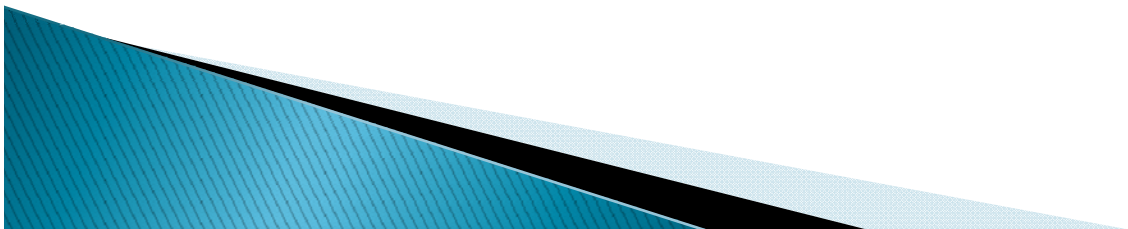

Given the above, the same will hold true only if !

- ▶ The organisation you are dealing with will be faithful and loyal with the brand of products being sold.

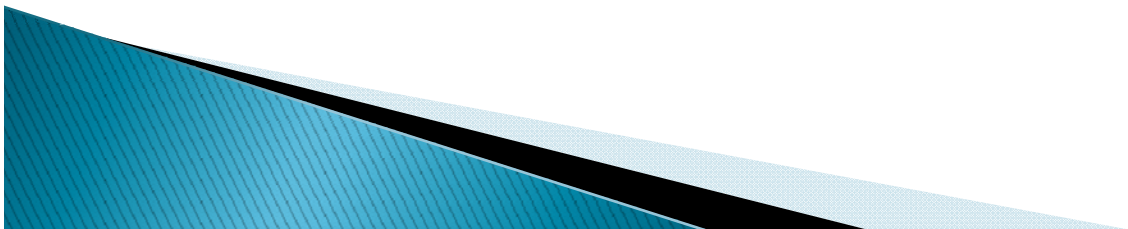

Why IMPALA ?

- ▶ We at IMPALA are an organization established three decades ago, we are a growing company with in-house R & D Facility for design and development, we have established ourselves with products require by the market at the appropriate time, presently we have launched our Video Door Phones (Required presently), hence there is no doubt that we will continue to exist.

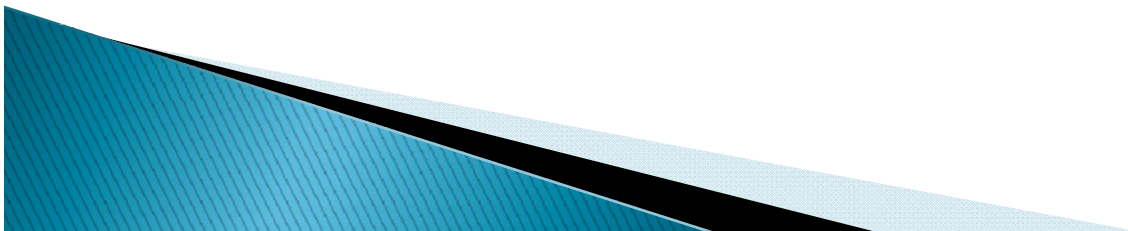

Why IMPALA ?

- ▶ From the date IMPALA existed, we are in the same line of providing communication systems. Our customer list provided the date of installation and the association of our company with customers as long as 21 years. Being a manufacturer, we take all the appropriate steps in maintaining required spare to provided services to products sold by us as old as 20 years.

Why IMPALA ?

- ▶ With regards to brand Loyalty, this is our own product, we are not a dealer of any brand that we switch brand loyalty the day profits diminishes in the trade.

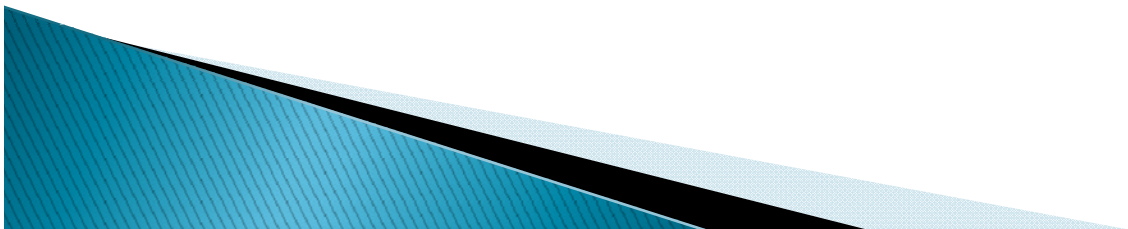

Our Point of Difference

Other companies	IMPALA
The organizations from whom these services are opted will they continue to exist in future	IMPALA is a company as old as 35 years
The organization from whom these services are opted Will They continue with the same product line?	From the date IMPALA existed, we are in the same line of providing communication systems.
The organization from whom these services are opted will be faithful and loyal with the brand of products being sold?	With regards to brand Loyalty, this is our own product, we are not a dealer of any brand that we switch brand loyalty the day profits diminishes in the trade.

Hence the benefit you will be having by using IMPALA products is assurance of using the product for its expected life, and probably for many more years beyond its expected life.

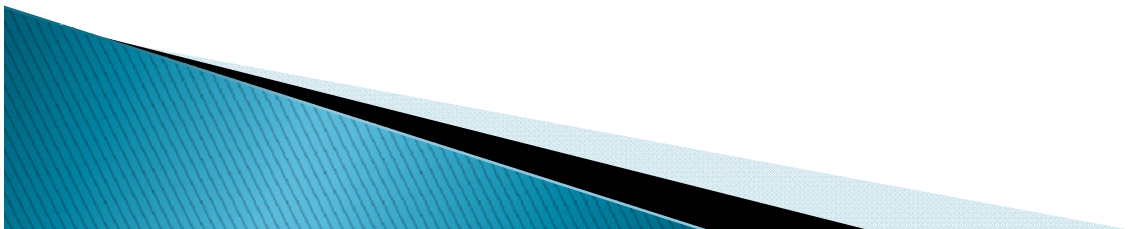

Don't you think it will be appropriate and advantageous for you to trust such a promising organization ?

Isn't it?

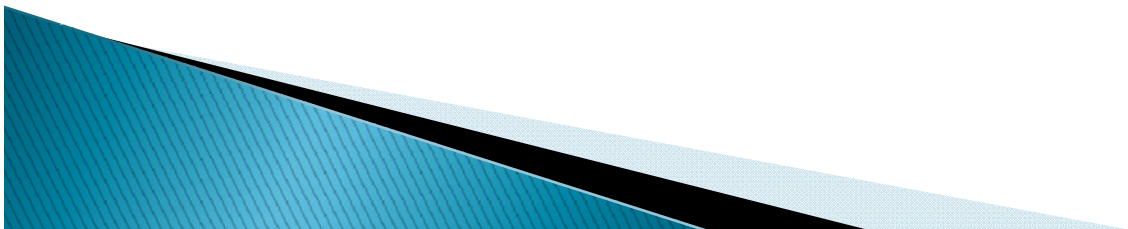

Benefit of intercom system

- ▶ **The Security of the main gates can call ALL THE FLATS to confirm the authentic visitors entry to the complex.**
 - Today many door to door delivery boys like Swiggy, Amazone, Myntra etc come to the complex exposing the danger of security and safety to senior citizens and children.
 - Te need for through scrutiny of visitors is an absolute need to the hour nowadays.

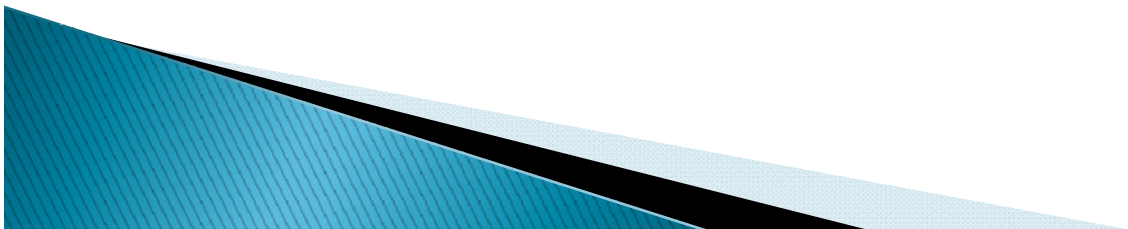

Benefit of intercom system

- ▶ Coded panic switch
- ▶ In case of an emergency the system is equipped with coded panic switch feature wherein the numeric display provided with the security guard will sound a hooter and display the intercom number indicating an emergency of the flat in question.

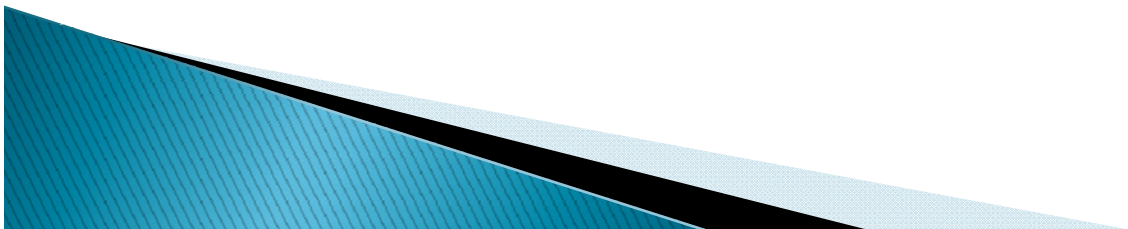

Other Features

- ▶ There are many useful features like
- ▶ Caller ID, Talking called ID
- ▶ Vendor message / chairman broadcast
- ▶ Wake up alarm
- ▶ Etc

Benefit of intercom system

- ▶ All The flats will be able to talk to any flats with in the complex
 - Many children from the same school need to communicate with each other
 - House wives need to check maid has reach other flat where she is also working
 - Committee members will need to discuss, a conference call will help for a details one to one and many to many together.

SINGLE SYSTEM

IMPALA is one of those companies to have a single system with a capacity of 4096 lines.

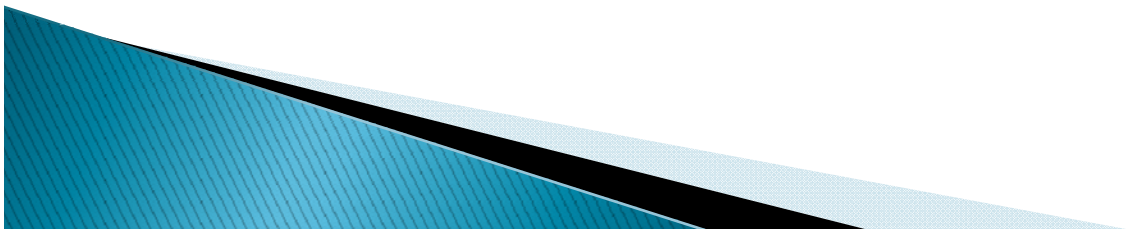

The design with high speed microcontrollers enables the system to handle 4096 lines in a single system.

All those companies without the capability of manufacturing a single system provides solution of two or three system with tie line card, showing you the advantage of cable cost.

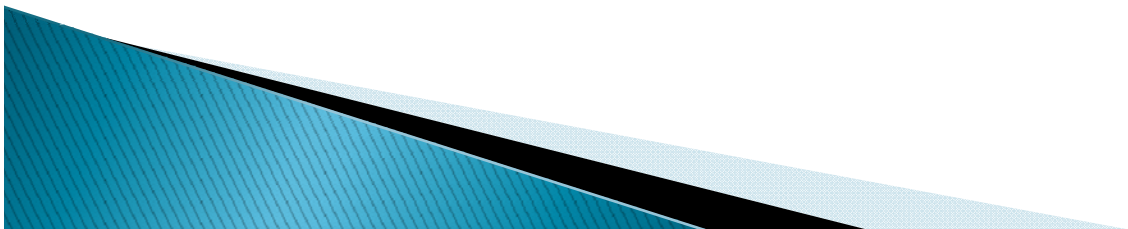

SINGLE SYSTEM

- ▶ Tie line with multiple system has limitation of calls between the system
- ▶ Caller Id will not show correct number from between system.
- ▶ Complicate numbering difficult for senior citizens, children and security guard to handle.

Road map

- ▶ We at IMPALA have a perfect road map for the next 3 decades
- ▶ Advanced multi apartment video door phones and other communication equipments are manufactured and are in design stage.
